

AYUNOL 60%

(Halquinol)

A versatile performance enhancer

Ayunol contains Halquinol- 60% as an aid in maintaining gut integrity results in better nutrient availability & utilization thereby resulting in performance enhancement.

COMPOSITION :

Halquinol.....60%

ADVANTAGES :

- Ayunol is Antibacterial, Antifungal, Antiprotozoal and excellent growth promoter
- It reduces the motility of intestine and hence acts as an anti-diarrheal.
- It is gut acting, not absorbed from the intestines, hence nontoxic.
- It slows down gut motility which result in better digestion and absorption of nutrient.
- Reduce litter problem.

INDICATION :

- Prevent loose droppings
- Prevent gangrenous dermatitis
- Extends peak production in layer
- To improve growth & performance
- Active against gram +ve and gram -ve bacteria, fungi, protozoa and mycoplasma organism
- Effective against Colibacillosis, Bacillary White Diarrhea, Pneumonia, Coccidiosis and necrotic enteritis
- Prevention of non specific diarrhea and wet dropping
- To improve flock uniformity

BENEFITS :

- Improve F.C.R.
- Improve weight gain
- Reduces mortality
- Improve overall performance

DOSAGE :

Broiler : 50 -100 gm / ton of feed
Layer : 100 gm / ton of feed

PACKING : 25 kg
