

LINCOMAX-FORTE

Your Search for Performance Enhancer Ends Here

SINGLE PRODUCT PROVIDES MULTIPLE BENEFITS :

- Provides mycoplasma control
- Improves gut health by controlling pathogenic organisms in intestine (Gram +ve bacteria, Gram -ve bacteria, Protozoa etc.)
- Boost up the gut immunity
- Modulate intestinal microbiota
- Modulate intestinal epithelium.

COMPOSITION :

Lincomycin.....2 %
Neomycin sulphate.....4 %
Tinidazole.....4 %
Citric acid.....2 %
Garlic Extract Powder
MOS + β glucan + Redefined functional carbohydrates
UGF

HOW LINCOMAX FORTE WORKS ?

Lincomycin :

- Highly effective against mycoplasma, gram +ve and anaerobic bacteria (esp. Clostridium spp.)
- It is fast acting and gets readily absorbed from intestine.

Neomycin Sulphate :

- Neomycin is broad spectrum bactericidal antibiotic having strong action against gram -ve and gram +ve bacteria (E.Coli, Salmonella, Clostridium etc.)
- Very effective in controlling enteric infection.

Tinidazole :

Effective against most of protozoa and some of coccidia.

Citric Acid :

Helps in reducing growth of pathogenic microorganism both in feed and intestine.

Garlic extract powder :

- Provides strong antibacterial, antiviral & antiprotozoal activity.
- Helps in improving digestion & immunity.
- Acts as appetite stimulant.
- Improves egg production & quality of albumin.

MOS+ β glucan+ Redefined functional carbohydrate (RFC) :

- Improves gut immunity.
- Stimulate growth of natural intestinal microbiota and inhibit growth of pathogenic bacteria
- Adsorbs mycotoxins.
- Improves villi length resulting in better absorption.
- Binds bacteria like E.coli & Salmonella.
- RFC binds cocci organisms.
- Improves overall intestinal health.

UGF :

Helps in improving growth and performance.

Base material :

It reduces peristaltic movements of the intestine resulting in improved digestion and absorption of nutrients.

BENEFITS :

- Performance Enhancer For Broiler/ Layers/ Breeders.
- Improve weight gain and FCR.
- Improves egg production in layers and breeders.
- Better return on investment.
- Helps in controlling necrotic enteritis.

DOSAGE:

Chicks / Growers : 500 gm / ton of feed
Broilers : 250 - 500 gm / ton of feed
Layers : 500 gm / ton of feed (for continuous use)
500 gm - 1.5 kg / ton of feed (for week a month programme)
Breeders : 500 gm - 1kg / ton of feed

LINCOMAX-FORTE : Most Ideal Performance Promoter in Broiler

Activity	Lincomax-Forte	Enramycin	Avilamycin	BMD	Tylosin Tartrate	Tiamulin
Gram +ve bacteria	+++	+++	+++	+++	+++	+++
Gram -ve bacteria	+++	NO	NO	NO	NO	NO
Anaerobic bacteria	+++	NO	NO	NO	NO	NO
Mycoplasma	+++	NO	NO	NO	+++	+++
