

SUPRONZA CP

Unique Food Grade, Heat stable Protease

What is SUPRONZA-CP ?

It contains single activity Protease (EC.No. 3.4.22.)

It optimizes protein digestibility and increases bio-availability of amino acids.

PACKING : 25 kg.

SUPRONZA-CP :

- Ultra-purified Protease (EC.No. 3.4.22.) is approved by USFDA.
- Stable and potently acts in all pH range between 3-8.
- It is naturally heat stable and effectively works between temperature range of 10-120⁰ C.

ADVANTAGES OF ADDING SUPRONZA-CP

- **Improves protein digestibility :**
Increases protein digestion and availability of amino acid for absorption.
- **Maintains gut health :**
Reduces levels of undigested feed in hind gut where it can act as substrate for pathogenic bacteria like
- **Reduces anti-nutritional factors :**
Degrades anti-nutritional factors resulting in better performance.
- **Improves environmental conditions :**
Reduces ammonia emission. Better welfare of both animal and workers.
- **Improves sustainability :**
Reduces dependance on soyabean as source of protein.
- **Improves carcass grade.**
- **Improves performance parameters.**
- **Reduces feed cost and Improves profitability.**

DOSAGE : 250 gm/ton of feed or as directed by nutritionist.
