

Tetragene

PRESENTATION: 1 & 5 ltrs.

High Level Multipurpose Biocide

COMPOSITION: Each litre contains

Benzalkonium Chloride I.P.....	13.6 % w/v
Didecyl Dimethyl Ammonium Chloride I.P.....	13.0 % w/v
Poly Hexa Methylene Biguanide Hydrochloride....	5.0 % w/v
DM water to make.....	100 % w/v
Inactives.....	Q.S.

TETRAGENE PURPOSE & BENEFITS:

- Tetragene contains Nanotechnology derived polymeric compound along with QUATS.
- Tetragene is high level biocide.
- Tetragene is a perfect blend of actives and synergistic inactives ensures better results.
- Nanotechnology ensure wide spread dispersion.
- Uniform coverage of area.
- High residual effect for 7 to 8 days.
- Safe and effective biocide.
- Extraordinary efficacy even at lower concentrations.
- Extremely powerful against pathogens including covered and uncovered viruses (especially avian influenza).
- Product of choice for shower as it is non irritant to skin.

INDICATION / APPLICATION / USAGE SCHEDULE:

Empty shed disinfection-	2 ml per ltr of water	Spray*
In presence of birds-	2 ml per ltr of water	Spray**
Empty shed Fogging-	20 ml per ltr of water	ULV Fogging
Hatcher / Setter Fogging-	20 ml per ltr of water	ULV Fogging
Hatchery mop/spray-	2 ml per ltr of water	Dip & Wash

For Best Results:

* 1 ltr of usable solution for every 25 sq. ft. carpet area from top to bottom.

**1 ltr of usable solution for every 150 sq. ft. carpet area.
